DATES ANNOUNCED FOR THE 2ND INTERNATIONAL DRONE EXPO

**Largest Global Commercial Drone Conference to Take Place December 11 – 12, 2015
at the Los Angeles Convention Center**

LOS ANGELES – June 22, 2015 – The International Drone Expo (IDE), previously LA Drone Expo, is the largest global commercial drone community gathering open to the public with 125 exhibitors and more than 6500 buyers. **IDE 2015** will be held December 11 – 12 at the Los Angeles Convention Center. The two day event is expected to draw 10,000 attendees.

IDE 2015 will be ground zero for:

- Facilitating selling of drones
- Purchasing of drones
- Making connections within the drone industry
- Learning about and creating the future
- Gaining competitor intelligence
- Identifying potential partners on a global scale

At **IDE 2015**, attendees will also meet the influencers and creators of today's hottest technology movement... commercial drones. They'll see drone technology that isn't yet available to the public, learn how to find a job or start a company in the "New Drone Economy" and be a part of the future!

Combining the best of all major consumer and professional trade shows – **IDE 2015** will have the cool factor of SXSW, EB3 and ComicCon, and the technology "wow" of CES and NAB. The conference will showcase not only the technology and commercial applications, but also the innovative and creative talent driving this emerging business segment.

IDE was created by the Unmanned Autonomous Vehicle Systems Association (UAVSA), the only worldwide drone association focused solely on the commercial prosumer, operator, pilot, innovator, entrepreneur, company and community. This year, the UAVSA is partnering with EJ Krause & Associates, a presidentially awarded international expo company bringing premier technology and staging to conferences global, to produce the event.

"The level of talent and enthusiasm in the commercial drone market is unbelievable," said Keith R. Kaplan, co-founder and CEO, UAVSA. "Every cutting edge company and individual in commercial drone science, engineering, design, creativity and piloting from around the world will be in one place at one time for the 2nd annual International Drone Expo, the energy is electrifying!"

Early Bird Tickets for **IDE 2015** are available now for both the Business Conference for \$295, and the Expo for \$25.
